Subject: RE: Response to Senator Blunt's request for USGS review - on H drive for review

I was instructed to draft the letter to reflect the points discussed during the Friday meeting. Simple is fine with me, but it may not meet Karl's expectations.

Me too. USGS is still working on the site and hasn't made any determinations. Keep it simple and just forward the comment letter.

 **Cecilia Tapia**

I reviewed the letter and tend to agree with Dan's comment to stay factual without interpretation.

Please review the transmittal letter saved to H drive as: 20140506_Response to Blunt request for USGS review of Criss report.

This was one of the action items coming out of our meeting last Friday.

Please let me know when you have completed your review of the letter and I will provide to Karl for review.
